

Concertina Razor Wire Security Topping

Clipped concertina coils formed from razor strip around a high-tensile core wire for controlled perimeter topping.

Configuration for Quotation

Item	Typical basis	Project option / decision
Razor profile	BTO-22 typical	Alternative BTO / CBT profiles
Coil diameter	450 / 600 / 700 / 900 mm	Select for layout
Core wire	High-tensile galvanized steel	Stainless option
Coil type	Cross concertina with clips	Flat-wrap option
Support	Arms and tension wires	Coordinate with substrate

Inspection Points

- Razor profile and core wire
- Coil diameter and clips
- Expanded coverage length
- Safe compressed packing and handling plan

RFQ Inputs

- Razor profile and material
- Coil diameter
- Required installed length
- Support arm arrangement
- Packing and destination

Quotation Control

Typical values organize the quotation; they are not a substitute for an approved project specification. Final construction, tolerances, finish, packing, quantities and document scope must be stated in the accepted quotation and order documents.
