

Industrial Cantilever Sliding Gates

RHS-framed cantilever gates with matched mesh infill and counterbalance geometry for controlled vehicle access.

Configuration for Quotation

Item	Typical basis	Project option / decision
Clear opening	3.0 to 12.0 m project range	Single or coordinated openings
Frame	Structural RHS steel	Sections by calculation
Infill	Matched welded mesh	358 or rigid mesh
Operation	Manual / automation-ready	Controls separately defined
Finish	Galvanized / powder coated	RAL color

Inspection Points

- Frame geometry, squareness and welds
- Clear opening and counterbalance
- Roller and guide trial fit
- Transport cradle and surface protection

RFQ Inputs

- Clear opening and height
- Manual or automation-ready
- Infill and adjoining fence
- Foundation and receiving details
- Finish, destination and site layout

Quotation Control

Typical values organize the quotation; they are not a substitute for an approved project specification. Final construction, tolerances, finish, packing, quantities and document scope must be stated in the accepted quotation and order documents.
